

# INTERNATIONAL WORKING MEETING

How to realize a central point of entry to get access to all regulatory and logistic data about crop protection products, seeds and fertilizer ?

## PROGRAM

**19-20 Oct. 2017**

Technopôle Archamps - France (74)

Hosted by Agrobase-Logigram and CMT-Lexagri

 **Dr. Imme Gerke**  
Director IDRG Bremen,  
session moderator

 **Conny Graumans**  
AgGateway Europe manager

 **Fritz Schuster**  
Agrobase-Logigram  
director and founder

 **Denis Larivière**  
Lexagri director and founder

 **Patricia Perez**  
Homologa data manager

 **Pierre Yves Busschaert**  
UIPP economic affairs manager

 **Bruno Prepin**  
AgroEDI Europe director

 **Frans van Diepen**  
Dutch Ministry of  
economic affairs

## Thursday 19 afternoon

- 13:30 **COFFEE AND REGISTRATION**  
14:00 **WELCOME** *By Fritz Schuster*  
14:10 **Digital Farming : Needs for access to regulatory data and challenges** *By Fritz Schuster*  
14:30 **Examples of existing systems :** *By Denis Larivière, Pierre-Yves Busschaert and Patricia Perez*
- Lexagri France
  - Homologa International
- 15:30 **SHORT BREAK**  
16:00 **Presentation of the international project** *By Fritz Schuster and Denis Larivière*
- What data is required from the manufacturers?
  - How to make this work?
  - What about the business model?
  - How to realise the interfacing?
- Workshop debate** *By Imme Gerke*
- 16:45
- Questions, opinions, suggestions
  - How to proceed?
- 17:30 **WRAP AND CLOSURE**

## Friday 20 morning

- 9:00 **COFFEE AND REGISTRATION**  
9:05 **WELCOME** *By Fritz Schuster*  
9:10 **Opening of the meeting by today's chairman** *By Hans Hulzebosch*
- For those who participate for the first time, a short introduction of AgGateway Europe (goals, governance, types of membership)
  - Explain about the work domain and scope
  - Introduce today's program and objectives
- 9:30 **PRESENTATION # 1** *By Conny Graumans*  
**AgGateway Europe, what's in it for you:**
- The Identity-ADAPT project on the use case of plant protection (the breakout sessions support the Identity-ADAPT project)
  - New work areas
- 10:15 **PRESENTATION # 2** *By Fritz Schuster and Pierre-Yves Busschaert,*  
**Agrobase-Logigram :**
- How to satisfy the growing need for reliable, up-to-date and digitalized regulatory data for crop protection products, fertilizer and seed ?
  - Include the results of yesterday's special workshop on this topic
- 10:45 **SHORT BREAK**  
11:15 **PRESENTATION # 3** *By Bruno Prépin*  
**SCTrace :** tracking and tracing of crop production products, and other inputs, throughout the Supply chain in France. Importance of data collection and interoperability of systems
- 12:00 **PRESENTATION # 4** *By Friedrich Laubscher (BAYER) and Paul Brune (BASF)*  
**CRISTAL**
- 12:15 **PRESENTATION # 5** *By Frans van Diepen*  
**Track & trace according to UNCeFact**
- 12:45 **LUNCH**

## afternoon

- 13:30 **BREAKOUT IN 3 PARALLEL SESSIONS**  
**DESIRED OUTCOME :**
- Better insight in the state of art on the topic and how it is dealt with in the Identity-ADAPT project
  - Decide about next steps and work to be done
  - Agree what companies will be involved in the next steps; organize commitment
- PARALLEL SESSION 1 [ business session ]**  
**SHARING REFERENCE DATA**  
*By Imme Gerke*  
Discuss the feasibility of improving the content of centralized databases with reference data on crop protection products, fertilizer and seed in cooperation with the producers of these inputs
- PARALLEL SESSION 2 [ technical session ]**  
**TRACKING & TRACING**  
*By Conny Graumans*  
Discuss what standards are available, and what infrastructure is preferred, to support track & trace of inputs used in agriculture
- PARALLEL SESSION 3 [ technical session ]**  
**MESSAGE PLATFORMS, DATA PLATFORMS (ADAPT, ISOXML, ...)**  
*By Neil Paton RBI*  
Overview of existing tools / platforms to support data-exchange with a special focus on the use case of crop protection
- 15:30 **WRAP UP, CONCLUSIONS, FOLLOW UP**  
16:00 **CLOSURE**
